

Nohau EMUL-ST10 Adapter F276 Layout

This is the top view of the target board layout for a direct one to one connectivity to Nohau emulators for the ST10.

This view is looking down onto the target board from the top. This follows the bottom layout of the emulator. This is the layout of the top of any adapters that the emulator plugs into.

The four connectors are male. The 40 pin are Samtec TFM-120-32-S-D-LC.

This pinout is for the Nohau EMUL-ST10.

Nohau EMUL-ST10 Adapter F276 Layout
 This is the bottom of the pod board layout for a direct one to one connectivity to Nohau emulators for the ST10.
